Profile

Computer Science graduate with experience in project management, stakeholder coordination, data analytics, and cross-functional team leadership across technology, retail, and government projects. Experienced in translating client requirements into execution plans, coordinating technical teams, and delivering projects on schedule. Strong analytical, communication, problem-solving, and leadership skills with an interest in business and management development.

Education

Satya Wacana Christian University — Salatiga, Indonesia
Bachelor of Computer Science — Sep 2021 – Mar 2025
GPA: 3.88/4.00
Major in Informatics Engineering, minor in Data Science

Experience

PT Traspac Makmur Sejahtera — Jakarta, Indonesia
Project Manager — Dec 2025 – Present

- Led Scrum-based delivery of government information system projects, defining sprint scope, module priorities, workload weighting, and execution methodology while coordinating cross-functional technical teams and government stakeholders to meet delivery timelines.
- Bridged government clients, consortium partners, and technical teams across project development and implementation, translating evolving requirements into actionable tasks while managing documentation, issue tracking, project schedules, and scope adjustments.
- Maintained on-time project and sprint delivery despite changing user requirements and additional modules during execution by coordinating scope adjustments, workload prioritization, and technical team timelines.

PT Sumber Alfaria Trijaya, Tbk (Alfamart) — Tangerang, Indonesia
IT Data Warehouse (Internship) — Sep 2024 – Aug 2025

- Processed and analyzed high-volume retail datasets spanning 34 warehouses, 21,000+ stores, suppliers, and product codes, using SQL and data warehouse workflows to support sales, inventory, and supplier reporting.
- Supported enterprise reporting system migration by transitioning SQL pipelines from Oracle to Snowflake and developing internal web-based tools using JavaScript and Python, improving reporting accessibility and system maintainability.
- Developed a machine learning-based forecasting prototype to analyze Ramadan sales trends and generate data-driven insights for seasonal retail analysis.

Leadership & Activities

Bangkit Academy - Led by Google, Tokopedia, Gojek, & Traveloka — Feb 2024 – Jul 2024
Machine Learning Cohort

- Completed intensive training in machine learning, cloud technology, and professional communication through Bangkit Academy, supported by certifications from Coursera and Dicoding.
- Contributed to a cross-functional machine learning capstone by developing image-based waste classification features using Python and TensorFlow, integrating Google Maps API, and supporting database integration through Google Cloud Platform (GCP).

Satya Wacana Christian University — Salatiga, Indonesia
Assistant Lecturer — Sep 2023 – Feb 2024

- Assisted in the delivery of undergraduate courses in IT Fundamentals, Artificial Intelligence, and Human–Computer Interaction for 160+ students across 4 classes.

- Supported students in developing technical and analytical competencies through course assistance and academic activities.

Hult Prize at UKSW May 2023 – Feb 2024

Head Of Program

- Led end-to-end event planning and execution, coordinating teams, stakeholders, logistics, and program activities to ensure successful delivery.

Student Senate at FTI UKSW Feb 2023 – Dec 2023

Head of Internship Department

- Planned internship seminar preparation programs and coordinated external partners to support student career readiness through professional development activities.

Skills, Certifications, & Projects

Skills

- **Languages:** Indonesian (Native), English (Professional Working Proficiency)
- **Project Management:** Project Coordination, Scrum, Sprint Planning, Project Scheduling, Stakeholder Management, Requirements Management, Risk & Issue Tracking, Cross-functional Team Coordination
- **Technical Skills:** SQL, Excel, Python, Snowflake
- **Professional:** Leadership, Communication, Analytical Thinking, Problem Solving, Team Collaboration
- **Tools:** Microsoft Office, Google Workspace, Figma, Figjam, Canva

Certifications

- Google Data Analytics – Coursera
- Database Design & Database Programming with SQL – Oracle
- Machine Learning Specialization – Coursera
- PM Masterclass for Business Professionals - Udemy
- PMI Essentials: Maximizing Project Success – Project Management Institute

Publications & Projects

- **Vehicle Detection in Traffic Using Kalman Filter and YOLO V8**
  Developed a vehicle detection model integrating YOLOv8 and Kalman Filter for traffic monitoring applications, achieving 93% accuracy, 96% precision, 85% recall, and 90% F1-score. Published in AITI Journal (**Link:** https://ejournal.uksw.edu/aiti/article/view/13576).
